

Have you ever felt
euphoric at the sight
of a pool?

If not, then get ready to be dazzled by the
grandeur of your dream pool!

As Aqvastar takes pride in bringing your fantasy
Pool / Fountain / Water Feature to life.

Discover the unparalleled pool
experience that awaits you

Let your pool reflect
your individuality

Build one-of-a-kind pools from classic reinforced concrete pools to sleek prefabricated liner pools incorporating underwater wellness with our expertise.

Using our technical input and product selection, choose the perfect fountain, dry deck, laminar, sequencing, and architecture marvel out there.

A couple of years ago...

A pair of old college friends, with a keen shared passion and a wealth of experience, had no clue that they were about to transform India's pool system with their innovative and sustainable solutions.

Having spent their thirties acquiring the necessary skills and experience, it was their forties that inspired them to step out of their comfort zones and pursue their dream of making Indian pools compete with the world's most sophisticated ones.

In 2015, they co-founded AQVASTAR, one of India's leading and foremost companies that provide high-quality swimming pool, fountain and irrigation products and services.

Ever since their modest beginnings, AQVASTAR has been dedicated to promoting top-notch products developed by highly qualified suppliers and engineers under the hawk-eyes of expert individuals to ensure the distribution of reliable, energy-efficient products.

With over 400+ partners around the country and 3000+ projects completed with their partners, AQVASTAR takes pride in treating every project with the same level of care and dedication it gave its first. Following an expansion into international markets, AQVASTAR successfully executed projects in the Far East.

Today's creativity is tomorrow's history. And AQVASTAR is in the process of creating the history of tomorrow.

Mission

We strive to exceed our customer's expectations by identifying the right products and technology to build and maintain their dream pools.

Vision

In 2025, AQVASTAR strives to become "The most trusted brand in India" for its quality products. Also, we aim to strengthen our camaraderie with Indian swimmers and support them in their quest for international glory.

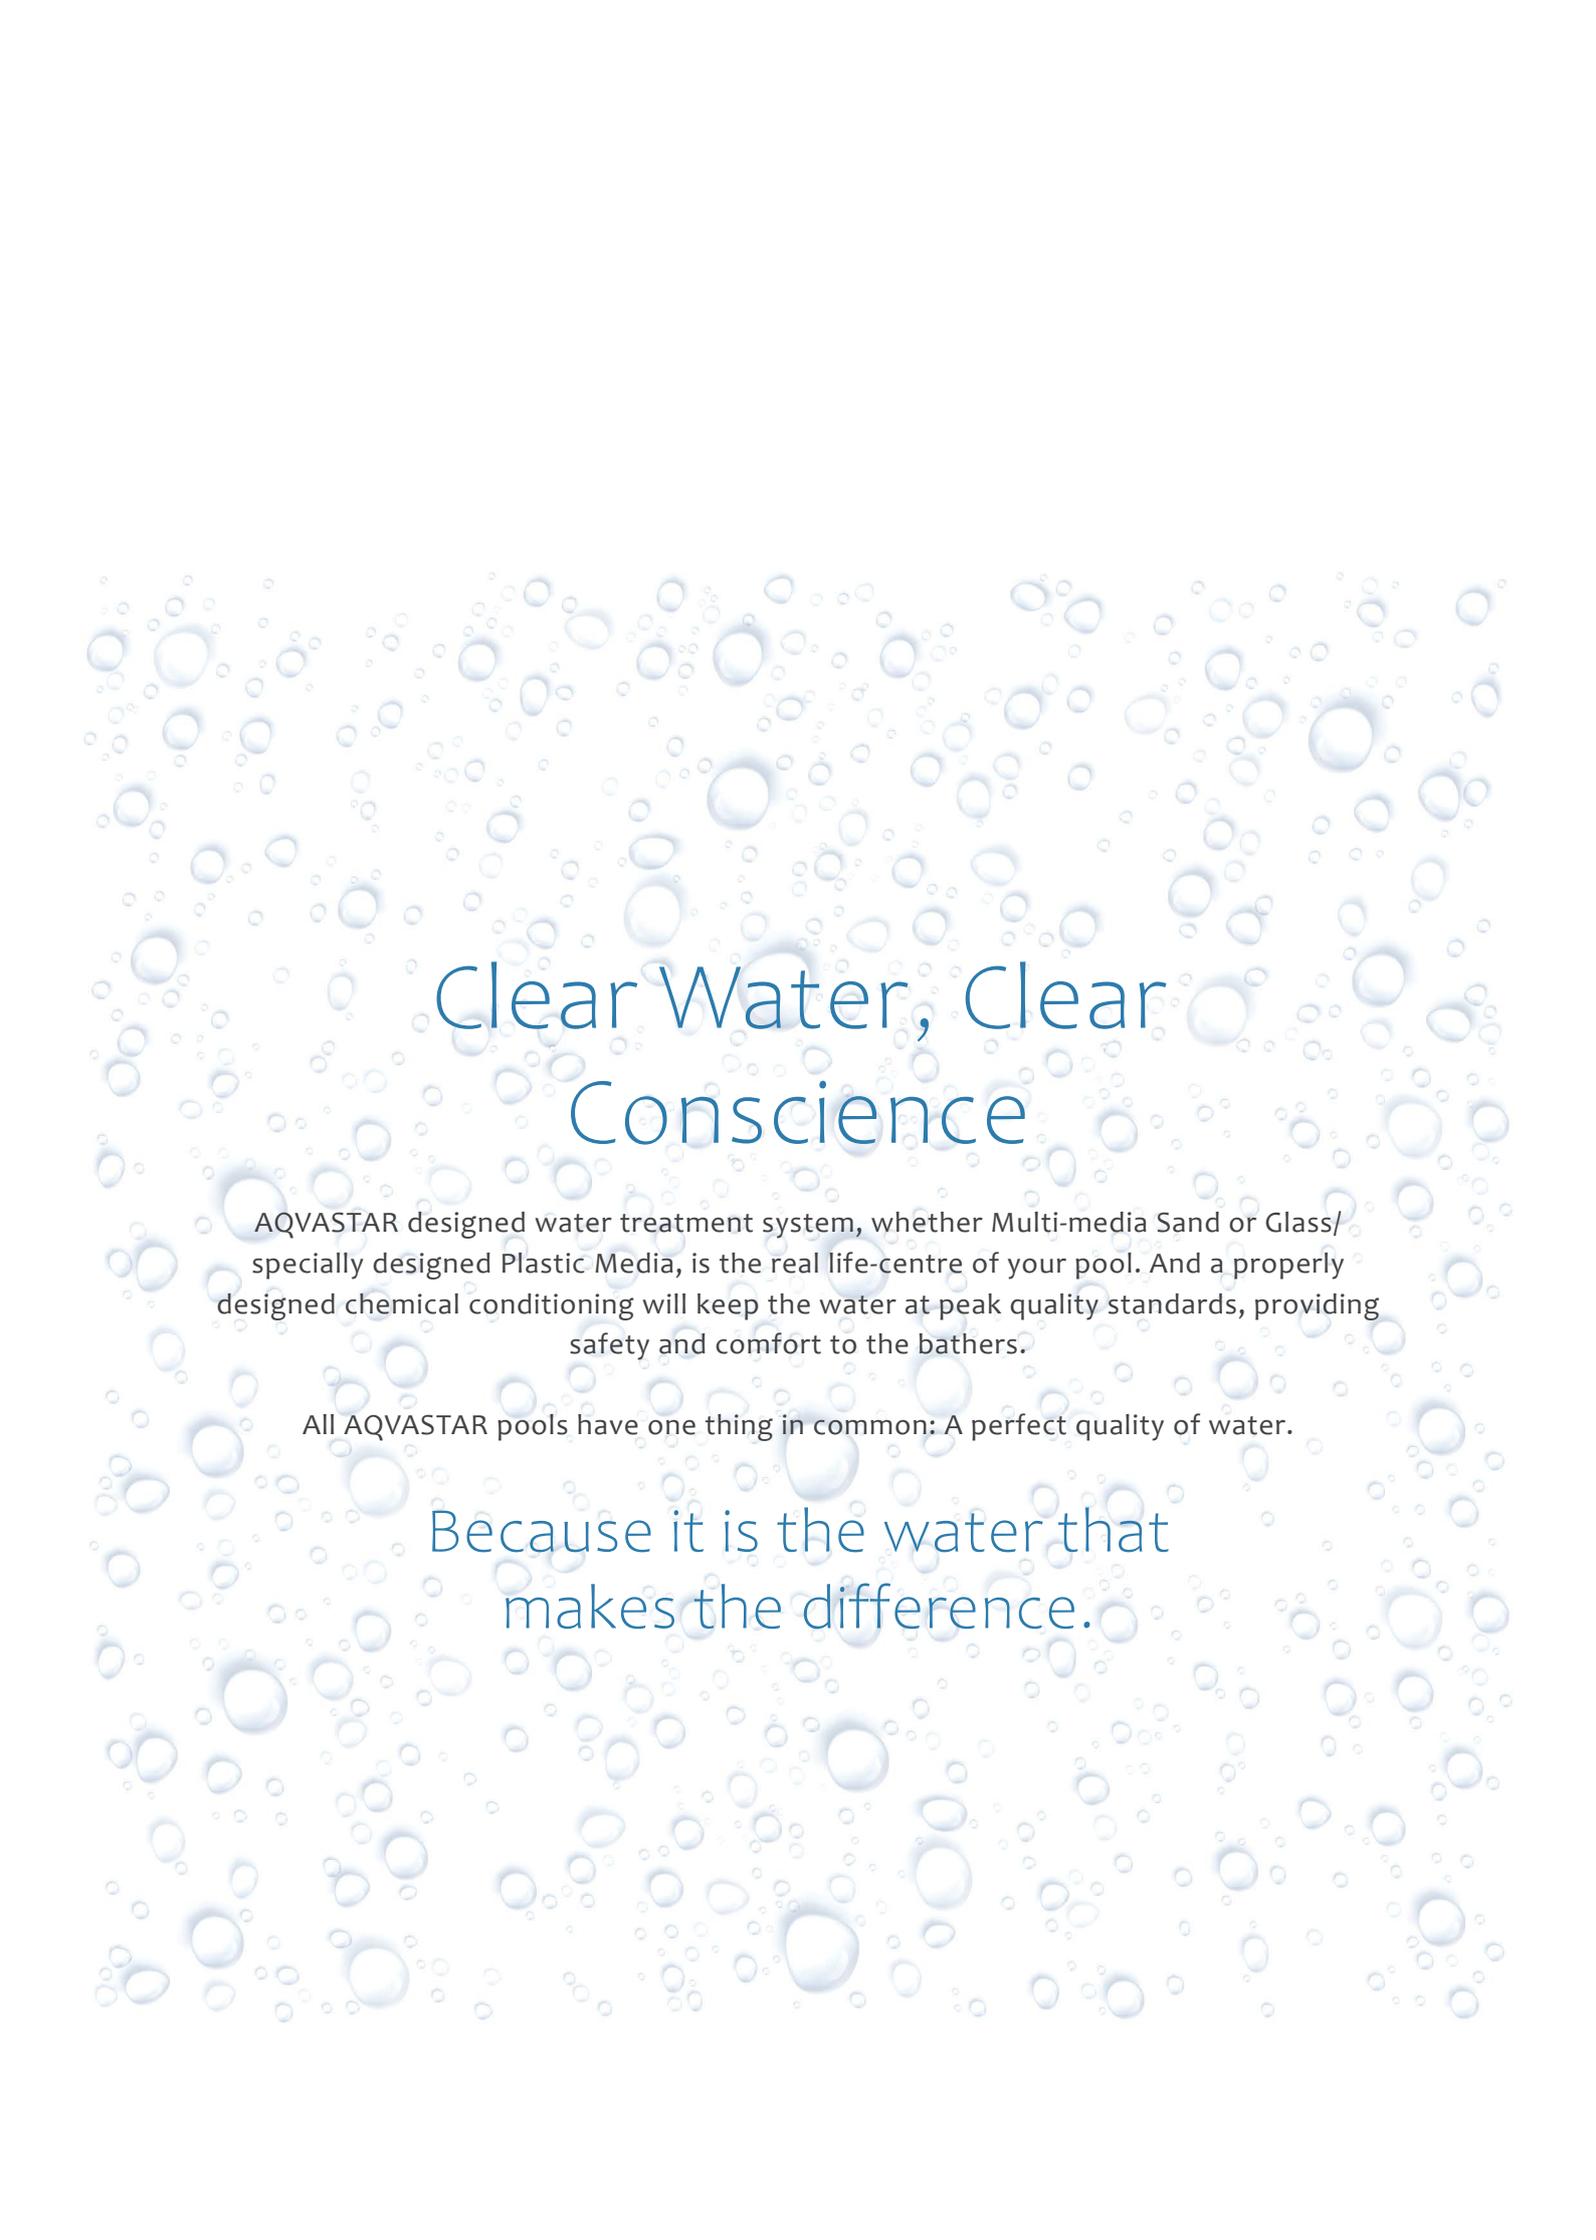

Transforming pools with innovation

With over thirty years of experience, Aqvastar's management team has been designing state-of-the-art swimming pools incorporating cutting-edge aesthetics and technology.

Each pool has its own specifications based on the customer's requirements. Whether it's private or public, hotel, club or competition, sports or leisure, Aqvastar has you covered.

With a perfect balance of technology, elegance, and comfort, we always find solutions to meet your needs.

The background of the entire page is a dense field of light blue water droplets of various sizes, creating a fresh and clean aesthetic.

Clear Water, Clear Conscience

AQVASTAR designed water treatment system, whether Multi-media Sand or Glass/ specially designed Plastic Media, is the real life-centre of your pool. And a properly designed chemical conditioning will keep the water at peak quality standards, providing safety and comfort to the bathers.

All AQVASTAR pools have one thing in common: A perfect quality of water.

Because it is the water that
makes the difference.

Enjoy the bliss of limitless assistance

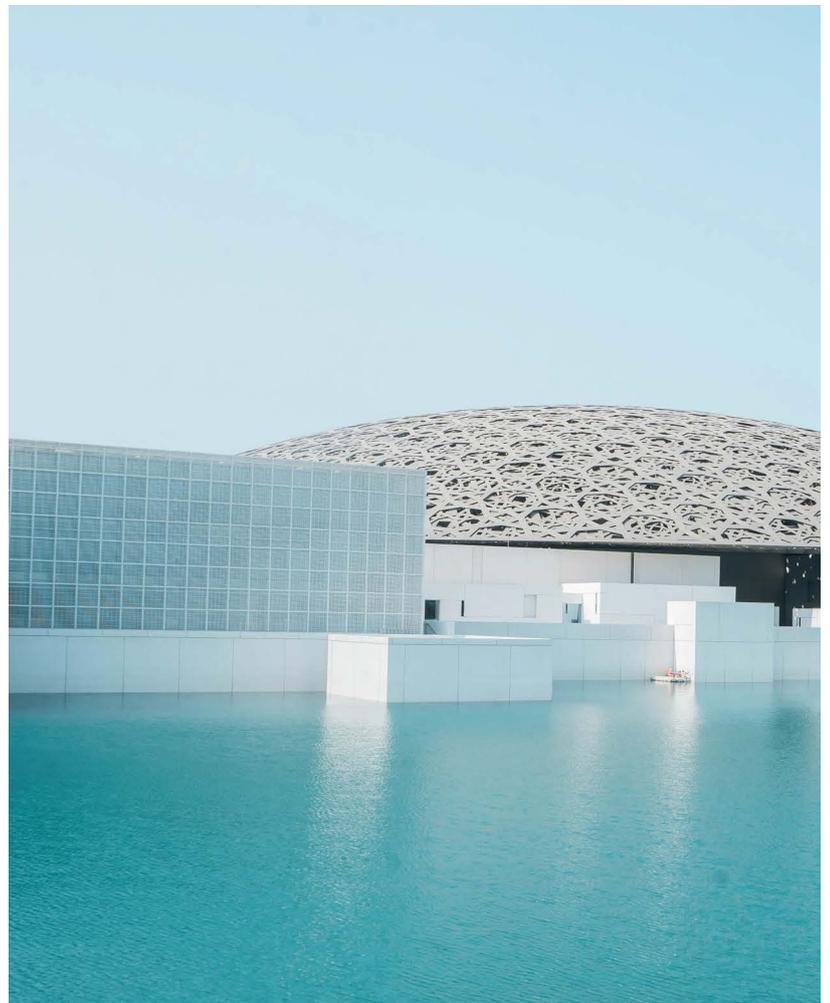

Let your creativity run wild while we help you realise your dreams with our insightful consultancy.

Our unmatched expertise enables us to deliver premium quality products and services for commercial and residential spaces. Reach out to us anytime between 6 am and 10 pm by phone, and we respond to late night emails and Whatsapp messages as soon as possible.

An industry leader in Design Consultancy

AQVASTAR is at its best as a Design Consultant, in addition to being a trusted product supplier. As a provider of installation support, we act as advocates for architects and their clients.

Besides offering a range of winning solutions, we are able to meet unique requirements by not offering installation services or proprietary designs.

Be it
showcasing
quality or
innovation,
our work
speaks for
itself.

Concrete pools with slick styles

Aqvastar handles a wide range of pools, from simple lap pools to highly complex projects including infinity edges, linear deck slots, standard deck level overflows, and letterbox surface flows.

Unique pool covers and rollers

Aqvastar Geo bubble plastic covers feature two bubbles joined together with waistline centre sections that are resistant to UV rays and chemicals. The rollers are sturdy enough to handle a maximum length of 30 metres.

Automated for your convenience!

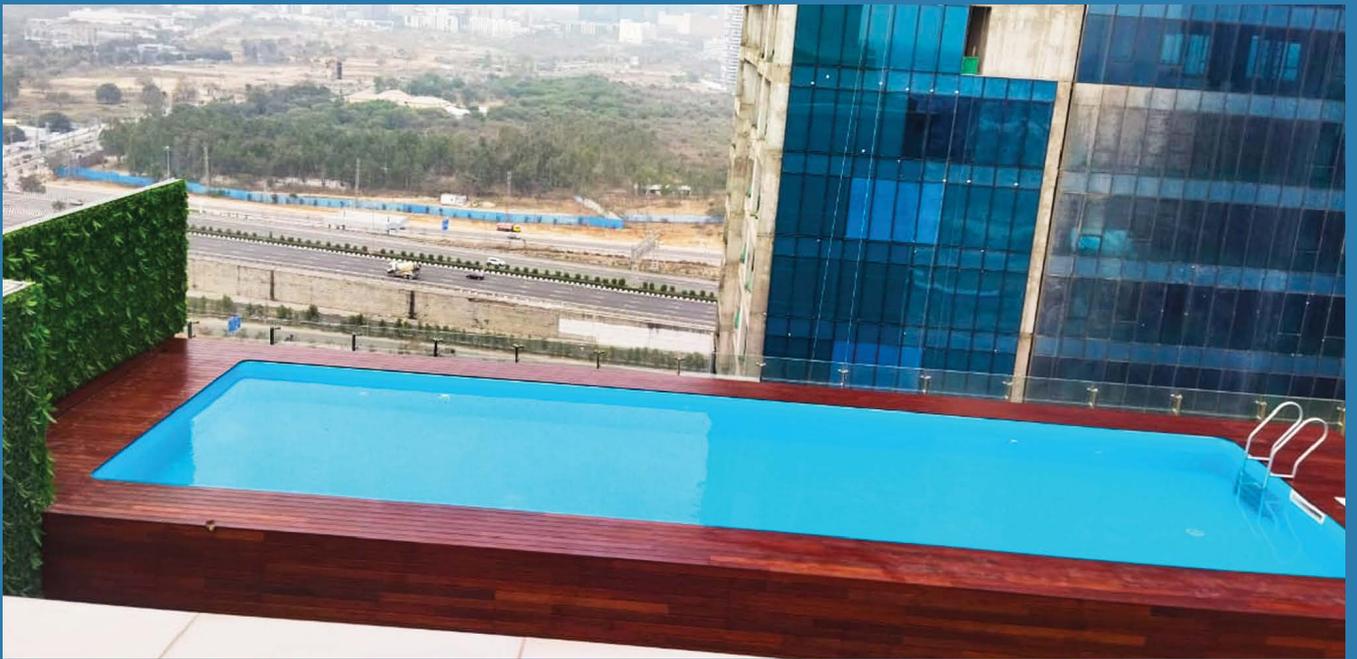

With a wide selection of models, Abridblue offers automated covers of French quality to fit every pool configuration and budget. Choose from above-ground or immersed covers, mobile or fixed, manual or electric and discover a pool experience beyond the ordinary.

Abridblue covers are distinctive and versatile, adaptable for both simple and complex configurations.

Customisable ready-made pools

Aqvastar offers an extensive range of ready-made swimming pools manufactured by RPI Industries, Portugal. The process of installing a RP Industries swimming pool is simple and effortless.

We're proud to have installed India's first ready-made pool on the 18th floor terrace, the first of its kind to be installed in the country. Each of our pools is specifically designed to meet the customer's needs. Make your pool as unique as you are by choosing from a variety of shapes, sizes and designs.

Equip your pool with high-end technology

Top-of-the-line heat pumps

AQVASTAR heat pumps are classified as residential and commercial models. Residential models usually come with single phase and side fans. In addition to a three-phase motor, commercial models also feature top fans and a large evaporator coil.

It was AQVASTAR that introduced Inverter Heat Pumps to India for the first time, and our installation references are excellent. We have redefined our heat pump selection with an inverter model with covers.

UV-C technology at its best

We work with Blue Lagoon, a Dutch company that is an expert in UV technology, to offer safe and long-lasting UV-C water treatment for pools. Unlike chemical disinfectants, UV light doesn't produce by-products, making it safe for use in water. Furthermore, it is impossible to overdose on UV-C light. Commercial UVs are also offered by Aqvastar for Olympic and semi-Olympic pools.

AQVASTAR understands the culture of Indians and therefore ensures that its equipment meets high quality standards without disrupting their privacy with excessive maintenance personnel.

Your pool deserves the finest filters!

AQVASTAR filters are divided into three categories: cartridge filters, multicyclone filters and media filters.

The two types of media filters are residential and commercial. These filters feature hydraulically balanced laterals, an integral sight glass, a manometer, and an air bleed apparatus. Multicyclone and cartridge filters are alternatives to media filters that don't require backwashing.

Get to pick your own filter type to suit your pool's needs.

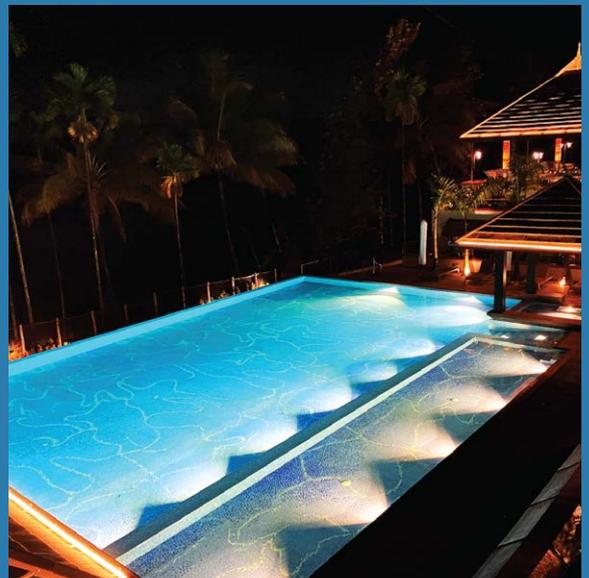

Quality pumps for maximum efficiency

AQVASTAR'S plastic pumps feature noryl impellers, SS shafts, high quality bearings and mechanical seals. These pumps come with union connections that make installation and after-sales services easy. Compared to competitors' products, these pumps are remarkably silent and have a good track record in India.

Lights to suit every mood

From economy lights to sleek mounting options, from niche to ring-mounted lights, AQVASTAR has it all. With smart LED lights, energy costs are reduced effectively and the lights have a long lifespan. Thus, they create a wonderful ambiance and also conserve resources.

Competition-specific equipment

The Aqvastar line of competitive swim training equipment and products is designed for individuals, swim teams and swimming pool facilities. In addition to anti-wave lane lines, different sizes of starting blocks, false start flags and backstroke flags, it includes a variety of other tools and equipment. Anti-wave racing lanes are made of UV-resistant polyethylene discs and floats threaded onto uncoated stainless steel cables.

We offer a wide selection of pool deck and surrounding surface equipment, including grab rails, handrails, steps, ladders, lane rollers, lifeguard chairs and diving boards.

Stunning water effects right at your fingertips!

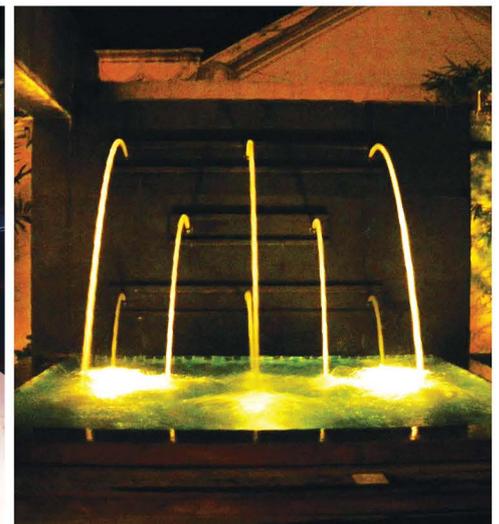

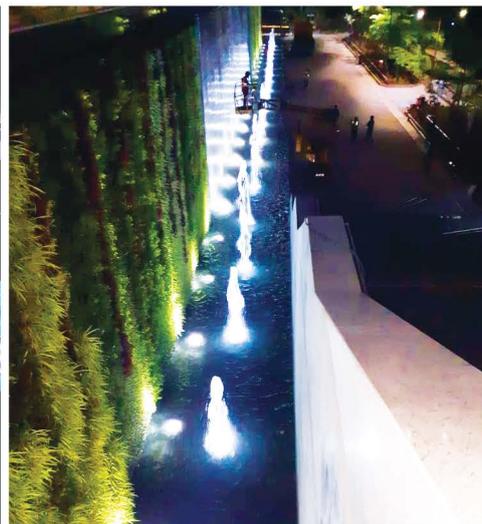

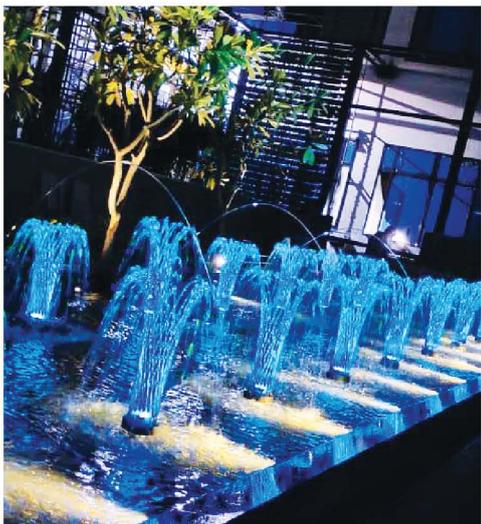

AQVASTAR is the leading product supplier of waterfalls and water feature effects. A special touch of ours can enhance any pool or water feature. Waterfall sheets, rain curtain effect, trickling effects, available for all shapes and sizes of pools, get the most out of your pool experience.

With an exceptional team backed by a timeless waterfall collection, Aqvastar is unbounded in its creativity.

A splendid selection of nozzles!

Our fountain nozzles range from basic models like cascade, foam, bell, clear stream and hollow to more complicated designs like laminar jets, interactive jets, rotating nozzles, 2 axis / 3 axis system with mist for products.

Committed to recognizing and empowering our Indian talents

Apart from promoting world-class products, Aqvastar always goes the extra mile in appreciating Indian swimmers' efforts and motivating them to achieve new frontiers in international platforms.

In recognition of Srihari Nataraj's incredible performance at the 2022 Commonwealth Games, Aqvastar awarded him a cash award of Rs. 1 lakh.

Aqvastar was one of the proud sponsors of the National Aquatic Championship - 2021. The company's Co-Founder, Mr. Muthu, congratulated and awarded certificates to the winners of one of the swimming events on 21 October, 2021.

Tokyo-bound Indian Olympic swimmers Srihari Nataraj, Sajan Prakash and Maana Patel were presented with cash rewards for their outstanding performances by Aqvastar. Srihari Nataraj & Sajan Prakash received two lakhs each, and Maana Patel was awarded a lakh.

Tokyo-bound swimmers feted

Bengaluru: Tokyo-bound swimmers Srihari Nataraj, Sajan Prakash and Maana Patel, along with their coaches Pradeep Kumar and Nihar Ameen, were felicitated by the Karnataka Swimming Association here on Saturday.

Swimming equipment company Aqvastar rewarded Srihari and Sajan with Rs 2 lakh each, while Maana received Rs 1 lakh. The KSA meanwhile, handed Rs 50,000 each to Pradeep and Nihar. Dubai-based Sajan and Pradeep joined virtually while Srihari, Maana and their coach Nihar were present on the occasion. Karnataka Olympic Association president K Govindaraj, who was present on the occasion, said that the state government's reward of Rs 10 lakh to Srihari would be handed over to him before his departure to Tokyo for the Olympics.

With KSA without its own facility, Govindaraj said the government is in the process of finalising five acres of land for basketball of which two acres could be allotted for swimming after adhering to due government procedures. **76**

Testimonials

We want you to know that we are very pleased with the quality of the products and services your company provides. We sincerely appreciate your responsiveness and the way you conduct business. Your staff and technical team have consistently made extra efforts to assist us in completing our projects on time.

Mr Thimmaiah.T.M.,

Director - Techno-Commercial Miracle Pools Pvt Ltd

I have been in the swimming pool & spa industry for over 20 years to date. The feedback I have received & the pools & spas I have completed using the 'Aqvastar' has been nothing but outstanding. Also, the service you give us is worth mentioning - as it is excellent.

Yunus Y. Sayyed,

Planet Pools & Spas Pvt. Ltd

Working with Aqvastar has always been easy and smooth. Very good communication with the team in charge who is very keen on perfectly knowing our products to offer the best solution to its customers. A trustful and committed partner in India

Mr. Rémy Bouchardy,

Export Manager - Next Pool Group

'Aqvastar' is our pool & water-body equipment supplier since 2014, Their products' dependability is something we deeply appreciate. Not only have they provided top quality products in a timely manner, but their staff is also co-operative & knowledgeable. We deeply appreciate our collaboration & would like to continue with it. We strongly recommend their name & products for our clients as well as new customers

Kiran Kulkarni,

Unique Pool Systems- Pune

For the last 6 years with us, they are good professionals, flexible, and immediate service providers immensely acclaimed in the industry owing to their preciseness, which is crucial whenever we have to make urgent decisions to capture the business opportunity. Aqvastar takes care of everything including the quality and their pricing is more competitive.

Manjunath Shenoy - Partner,

Lagoon Pools & Spa

When the leader is the best in the industry, the company's progress is inevitable. The same story holds 100% true for Aqvastar. The head of the company, Mr. Muthu Venkata Selvam sets a perfect example for everyone in the company as well as to competition. In just 5 years of its operation, the company is already the market leader. The level of commitment towards its client/customer, the quality of products, the after-sales service support, and 24*7 assistance are the few key reasons for the commendable performance of Aqvastar. It's a very strong belief that the company is yet to see its zenith. The confidence is based upon the year on year positive growth the company is seeing and the steps were taken by Mr. Muthu to make it a multinational brand. I wish them good luck in future endeavours.
